

2026 Woman of Distinction

Energy Architect

Tricia Breeger

President and CEO

Mitsubishi Electric Power Products, Inc.

Tricia began her career at MEPPI in 2000, and over the past 24 years, she has served in a variety of leadership positions within the company. Tricia first became a leader in the electric power industry by serving as general manager of the company's Electrical Distribution Division. In 2018, she was promoted to general manager of the Uninterruptible Power Supplies Division where she oversaw the day-to-day operations and expanded the division's market share in the critical power industry. In 2020, Tricia was promoted to vice president, participating in the company's long-term strategic planning with a focus on innovation and expanding technology-driven solutions.

Serving as president since 2022, Tricia has led the company's operating groups and shared services while gaining a

deep understanding of MEPPI's diverse customers and markets. As chief executive officer and president, she now oversees business strategy, innovation, and growth while transitioning the company towards digitization and decarbonization.

Tricia received a bachelor of science degree in mechanical engineering from the University of Arkansas and an master of business administration from Robert Morris University. She is dedicated to the advancement of manufacturing within the greater Pittsburgh region and serves as chairperson to the board of directors for Catalyst Connection, a western Pennsylvania non-profit supporting the manufacturing sector. Tricia was a Division I swimmer and is a strong advocate for women in sports.
